DRS-FLOOR CAMP – 2-DAYS TRAINING WITH THEORETICAL BACKGROUNDS AND LIVE DEMONSTRATIONS

DRS-FLOOR TECHNOLOGY: *by skilled combination of mechanical surface processing and chemical concrete treatment with lithium-based products, dusty and unattractive concrete floors could be converted into high-performance, wear- and dirt-resistant, maintenance-friendly and attractive looking industrial floors. Also for decorative floors DRS-FLOOR offers an infinite number of solutions!*

Target group: Companies, willing to extend their business activities by full service in floor processing. In our seminar you will not learn the trivial handling of a grinding machine, but will receive all technical and commercial foundations of the DRS-FLOOR technology!

Included services:

- 2-days workshop with theoretical basics and live demonstrations
- a lot of solutions for production of new and renewal of old industrial and decorative concrete/screed floors
- knowledge about methods of renovation for old epoxy floors and hard aggregate toppings
- guidelines for making project calculations
- extensive seminar documentation
- certificate of authorized DRS-FLOOR partner
- 2 nights (single room incl. breakfast) in a middle class hotel near the event location
- 2x dinner incl. drinks, 2x lunchtime snacks
- catering during the training

Date: Will be coordinated in advance with all expected participants

Event location: Dr. Schulze GmbH Factory IV

Gewerbestr.9 39291 Theessen Germany
(located directly at the motorway A2
between Berlin and Magdeburg)

Participation conditions:

- Participant fee 1.500,- € p.p. (VAT not included)
- incl. deposit 500,- € (VAT not included) to be paid within 5 days after event scheduling (non-refundable by non-participation)
- Full seminar costs of 1.500,- € p.P. will be credited and consumed by coming orders after achieving a net purchase value of 10.000,- € p.P. with DRS-FLOOR products (machines, tools, chemicals) within 6 month after the end of the seminar. No cash refund possible.
