

CORE DRILLING SPECIAL

BRUSHLESS CORE DRILLING MOTORS BL20 / BL21

NEW

Thanks to their brushless, encapsulated design the BL20 and BL21 are true **lightweights** with **impressive performance** – optimally protected against dust and moisture. Numerous well-thought features and the ergonomic design make work easier, increase reliability and enhance safety in daily use.

The newly integrated **kickback stop**, an active safety feature, detects dangerous or uncontrolled twisting of the machine and immediately stops the motor. This significantly reduces the risk of injury.

Core drill motor BL20
for wet drilling

Core drill motor BL21
for wet and dry drilling

	BL20	BL21
Drilling diameter:		
- Stand-guided (concrete)	16 – 182 mm	
- Hand-held (concrete)	16 – 100 mm	
- Hand-held (masonry)	16 – 200 mm	
Motor	2,2 kW; 230 V	
Number of gears (mechanical/electronic)	2 / 2	
Rotation speed	550 – 2870 min ⁻¹	
Spindle	1¼" + ½"	1¼" + Adaptor ½"
Weight	5,8 kg	5,9 kg
Price	1.790,00 €	1.860,00 € 

GENERAL TECHNICAL CHARACTERISTICS:

- **B20 for wet drilling**
- **B21 for dry and wet drilling**
- extremely powerful for its light weight
- completely enclosed engine housing
- status and load indication
- drilling start mode and integrated kickback protection
- two electronic and two mechanical gears
- with serial easy-release ring
- additional handle with vibration damping
- Bluetooth connectivity
- delivery in convenient transport case
