

CORE DRILLING SPECIAL

CORE EXTRACTOR DRS-BKH

NEW

Do you also have problems with pulling drilled cores out of the borehole?

With our vacuum core extractors this becomes child's play!

- mount the appropriate suction adapter (for vacuum cleaner, for vacuum pump or for vacuum stick) on the core extractor;
- put the core extractor on the core, connect the hose (if necessary) and switch on the vacuum;
- pull the core out from the borehole taking safety measures into account;
- turn off vacuum.
